EDGE

ESSENTIAL

The revolution in the control of your farm

EDGE ESSENTIAL is the ideal solution for those seeking advanced technology, accessibility with remote access and maximum versatility in safely controlling your poultry and swine house.

Developed to meet your needs, it combines safety, simplicity, and flexibility, ensuring greater efficiency and connectivity for your operation.

Advantages

- **Cost-benefit:** Cutting-edge technology with a feasible investment
- **Safety first:** Robust and reliable components
- **Versatility:** Adapts to different applications (poultry, swine), from simple to complex, from new to existing houses
- **Easy to use:** Intuitive interface 10" touchscreen, designed for simple navigation
- **Connectivity:** Remote access allows you to control your operation from wherever – 24/7
- **Continuous evolution:** Expandable to meet growing demands
- **High longevity:** Durability that accompanies the growth of your operation
