# **STAINLESS STEEL** FEEDERS

UNLOCK BETTER PERFORMANCE

# MORE FEEDERS, MORE OPTIONS

Nursery, wean-to-finish and finishing, AP has the stainless steel feeder and options to support the ever-growing needs of your pork production facilities.

**FINISHING**

**WEAN TO FINISH**

## **QUICK-ADJUST SYSTEM**

Patented Quick-Adjust provides quick, accurate and consistent control of feed gate settings.\*

## **DIVIDERS**

AP offers three divider options:

- Wide spaced divider rods provide comfortable feeder access for larger hogs.
- The “W” design prevents small pigs from becoming lodged in the feeder.
- The solid panel design reduces feed aggression for uninterrupted feeding.

## **FEED SAVER LIP**

Reduces feed waste and is designed for added strength and easy cleaning.

## **DROP TUBE HOLDER**

Finishing and wean-to-finish feeders feature welded in drop tube holders to secure the feed delivery tube and provide additional feeder strength.
