

CEILING ***INLETS***

VENTILATION SYSTEMS

UNLOCK BETTER PERFORMANCE

OPTIMAL **AIRFLOW DISTRIBUTION**

ACI INLETS

Actuated Ceiling Inlets from AP provide precise control for even air flow patterns throughout the room. An insulated design, low maintenance construction, easy installation and simple operation cut time and energy costs.

- Insulation and air-tight seal between the pivot ends of the louvers prevent air leakage and potential for heat loss.
- Multiple rigging options and solid pulleys.

ACI-2-2828
28.5" x 28.5" Rough Opening

ACI-2-1228
12.5" x 28.5" Rough Opening

A one-piece housing eliminates joints that can harbor viruses and provides an easy to clean surface.

2-WAY ACTUATED CEILING INLET

Actuated ceiling inlets from AP provide precise control for even air flow patterns throughout the room.

- Available in 2500 to 4000 CFM bi-directional or 2500 CFM uni-directional models
- Plastic or stainless steel housings
- Pressure wash friendly

**2-WAY ACTUATED
CEILING INLET**

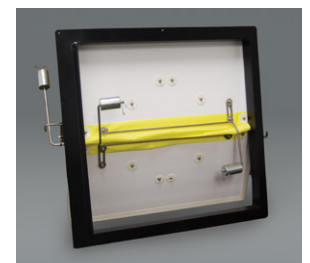

CAI-2700CW CEILING INLET

Counterweighted bi-flow ceiling inlets automatically adjust based off negative pressure supplied by the exhaust fans.

- Bi-flow ceiling inlets come in two sizes; 1000 CFM and 2700 CFM
- Pressure wash friendly

BI-FLOW CEILING INLET
